

# DON'T GROW UP YOU WON'T LIKE WHAT YOU BECOME

A pandemic sweeps across the world, turning adults into flesh-hungry maniacs, and when children pass through puberty, they turn too. If this sounds familiar, COVID must have been very different for you! And there's no coming back from this one. It started with a slug-killer powder called Nemkyl, but there's someone behind it all, and they have a plan. *Nematodes* is a face-scratching, neck-biting, action-packed thrill ride where children are the angry, desperate, and heavily armed protagonists. But their tribalistic approach to society in a world where adults are either monsters or a mistrusted enemy won't help them with what's coming, as an alien conspiracy operates behind the scenes.

David Smith is a prolific and eclectic writer, a Welsh recluse who's probably planning the very horror he writes about. We've been getting great feedback about *Nematodes*, and we're excited to inflict it upon an unsuspecting public. Will you be part of our campaign of terror?

Check out the ordering information here and contact us with any questions you may have about this exciting release that's sure to make its mark - if not on your throat then at least in popular culture.
